

GOOOH National Facebook Account Building a Presence

Contact: Karena Morrison karena.psst@gmail.com

If you are currently a Facebook account holder:

Go to the following link: <https://www.facebook.com/GOOOH>

If you haven't 'liked' the "**GOOOH - Get Out Of Our House (Official)**" page, you will see a 'Like' button right after the title of the page.

Click on it.

If you aren't a current Facebook account holder, you must sign up before clicking on the GOOOH Facebook account link.

These directions are for a first time Facebook user. They will show you how to create your own account, edit your information for the world to see, search for other GOOOH Team Leaders and join the GOOOH page.

1. Go to <https://www.facebook.com/>

2. On the right side of your screen, you will see a large blue area with the heading "Sign up for Facebook".

Enter your information including your birthday. Don't worry, you can choose whether or not you want that displayed later on. Click "Sign Up"

3. The "Capcha" words in the white box will be different for everyone. Type the words you see in the box provided and click "Sign Up" again.

4. You are now asked to confirm the email address you provided. Open your email account and simply click on the link provided in the email from Facebook.

5. You are now officially on Facebook! They welcome you at the top of the page, and these next three steps are there to help you find people you know who might have a facebook. These steps are optional. I'm going to skip these in the instructions because you can do all of these at a later time.

6. The screen you see now is your "home" screen. When you log in this is the first page you see. Eventually, it will serve as a place to see what your friends did last time they were on Facebook. Click on "View and edit your Profile".

7. This is the page the rest of the world sees when they become your friend. Right now, we're going to put up a picture instead of that blue shadow. Click on "Upload a profile picture".

8. Your picture is what people will see every time you interact with someone or

something. When they search for your profile, when you write on the discussion board, or when you send them a message are just a few times that your picture appears. This picture doesn't have to be of you, but I would recommend that it is. Some people make it a picture of something important to them – their family, their dog, the ocean. The picture is really up to you. Another suggestion would be to use the GOOOH Logo. Simply click "Browse", find your ideal picture and double click it. It will upload all by itself!

9. Now that you have a basic profile set up, you can find the National GOOOH Facebook account here: <https://www.facebook.com/GOOOH>
