Jane Cross, also known as "Juanita Cruz," was selected by GOOOH members to represent citizens like you and me. I promise not to revert back to anything. You cannot beat the incumbent by running against him in the opposite party, many have tried. GOOOH's strategy is to run against the incumbent in the primary, so that's what I am doing. I am an American first, a patriot, and a citizen of Common Sense who is reasonable and responsible in all areas of the political arena.

I am not a lifelong or career politician! I will show up for work. I care about the people and will listen to what they want. I care about managing our money, particularly the money we don't have. I care about taking back America for the working people - the tax paying middle class. I believe that Congress must set an example of the highest standards. I will not take advantage of the office as so many have done. I will pay my taxes and my bills. I will not be an elitist.

I am just like you and will not accept special treatment - I certainly will not demand it like so many in Congress today. I do not believe someone is special because they are a member of Congress. I believe a congressman is a servant OF THE PEOPLE. Congressmen do not deserve special interest treatments or access to special interest programs that WE THE PEOPLE do not have access to. I know there are others in this country, like me, who care about WE THE PEOPLE, and we can do something about it NOW!

I ask you to please vote for JANE CROSS for CONGRESS, in the Democratic primary, on APRIL 3rd, so we can take back America FOR THE PEOPLE!
